

It's raining!

After reading the Bible story, talk to your child about all the rain that caused the flood. Then perhaps chose some of the activities below to enjoy together.

Make it rain!

Make rain by putting liquid water color in spray bottles and spraying paper outside or drip paint from brushes onto paper to make rain.

Build a boat

Explore what Noah could use/not use to build a boat. What kind of boat would you build if you were Noah? Can you set up a work bench? What kind of tools might Noah use to build his boat? Look at tools that you have in the house and talk about how grown ups have to use them safely.

Find the matching pair

Noah chose 2 of every kind of animal. Draw 2 pictures of each animal and give each child one and hide the other. Can they find the matching animal to go on the ark?

Float or Sink Experiments:

Add objects to a washing up bowl full of water for your child to discover if they sink or flo

Science

Talk about the weather, rain, water, etc. Act out playing in the rain. Children "pretend" to put on rainboots raincoat, rain hats, hold and put up umbrellas. Walk around in the "rain". Put paper puddle shapes out for the children to jump over or into.
